

XPRESS DESK™ (10-XPRESS)

The Xpress Desk is an inexpensive and practical mobile solution for laptop users on the road. The unique design allows the user to mount the laptop securely on the steering wheel, directly in front of the user while parked. The user can then comfortably enter data into the laptop.

Xpress Desk is easily positioned by the existing steering wheel adjustment. The NEW version of the Express Desk no longer has the raised sides, allowing for any laptop. The user can then easily remove the desk and place it on the seat or inside the side compartment of the Autoexec.

- Installs in seconds
- Works on all Laptops, including new 17" wide units
- Special Vinyl coating protects your laptop
- Very THIN 36" Nylon Strap with Seat Belt type connector to help secure the laptop to the Xpress Desk
- Increases Productivity
- Stores easily
